

Care for Creation Webinars:

“Saving Us”

World renowned climatologist Dr. Katharine Hayhoe maintains that urgent climate action is not about “saving the planet”. The planet will do fine without us. It’s about “saving us”, our future, and what we must do now.

After Dr. Hayhoe’s dynamic recorded presentation participant comments will be shared.

Dr. Hayhoe teaches at Texas Tech and is chief climate scientist for the Nature Conservancy. She was named by Time Magazine as one of the 100 most influential people.
